MyFirePlane.com Quick Start Guide

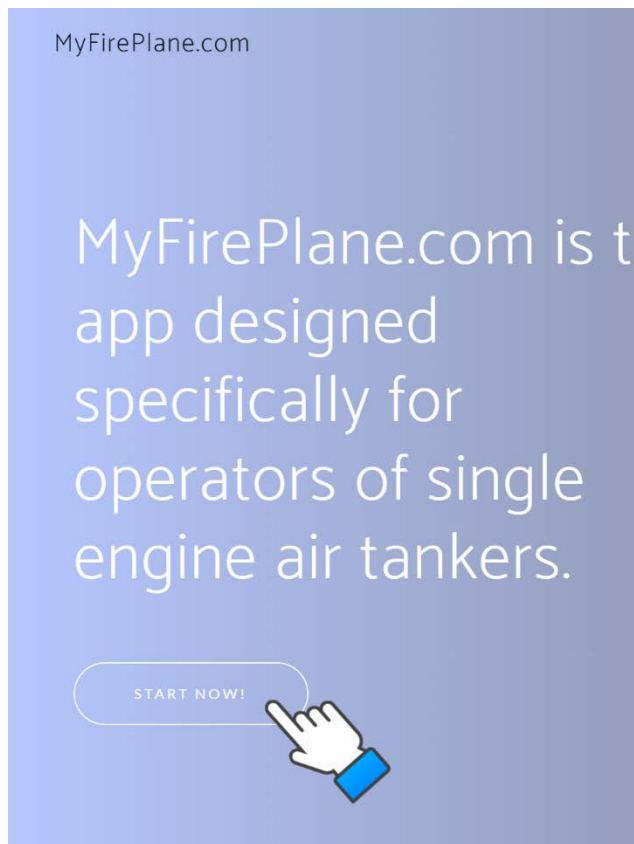

Thank you for your interest in the MyFirePlane.com app!

We are striving to provide the most effective and usable app ever directly offered for single engine air tankers.

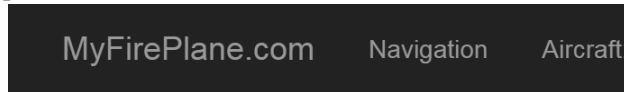

This quick start guide will guide you through the initial enrollment process. Please give it a try. Trying the app is free and we promise that it won't take more than 20 minutes.

Step 1 – Enroll as an App User

Navigate to the login screen.

Register as a new User.

Log in.

Use a local account to log in.

User name

Password

Step 5 – Takeoff...

That's it. You now have an active account and airplane in the MyFirePlane.com app.

Your account is in basic mode so you will only have access to the flight log, weight and balance and a few other useful tools.

To change this, simply go to your user configuration screen and then to the account configuration screen.

Thank you for your time and please don't hesitate to contact us if you have any problems or have any suggestions .. or just want to say hi.
